

Annual Meeting, October 2022

We are excited about the services and resources we provide to the Putnam Valley Community! During 2022, there have been many changes. Library visits have increased, and the demand for in-person programs has returned. We plan to continue offering the option of virtual programs and curbside pickup because of its convenience. Our plans for 2023 include a critical fundraising drive for the much-needed replacement of the Library's aging skylight and roof. The plans also include a renewed and strengthened commitment to provide outstanding services and resources to the community.
